Professional Summary

AI-driven B.Tech Mechanical Engineering final year student at MMMUT Gorakhpur, leveraging advanced AI developer platforms including Claude, Antigravity, OpenAI Codex, and ChatGPT for AI-powered web development, UI/UX design, and rapid prototyping. Experienced in community outreach, creative event poster design, technical content writing, and electro-mechanical fabrication. Active in SAE (DISCO) and organizing committee for Techsrijan 2025 & 2026.

Technical Skills

AI Developer Tools: Claude (Anthropic), Antigravity, OpenAI Codex, ChatGPT, Prompt Engineering, Agentic Workflows
AI-Powered Web & UI/UX: AI-Powered Full-Stack Web Development, AI-Assisted UI/UX Design, Rapid Wireframing, Figma AI
Design & Creative Content: Digital Poster Design, AI Image Generation, Technical Content Writing, Event Copywriting

Education

Madan Mohan Malaviya University of Technology (MMMUT) — Gorakhpur, UP
Bachelor of Technology (B.Tech) in Mechanical Engineering – CGPA: 4.18 (Final Year) — *2023 – 2027*
– Focus: Artificial Intelligence Applications, Web Development, Systems Design, Engineering Fabrication.

Gayatri Shiksha Niketan — Jamshedpur, Jharkhand
Senior Secondary School Certificate (Class XII) – 78% — *2023*
– Physics, Chemistry, Mathematics, Computer Science, English.

O.P. Jindal School — Odisha
Secondary School Examination (Class X) – 93.2% — *2021*
– Academic Distinction with strong aptitude in Mathematics, Science, and Information Technology.

Internship Experience

Sahara Welfare Foundation (SWF) — Lucknow / Gorakhpur
Social Work Intern (CSR Division) – Cert. No: SWF/2025/1986 — *June 6, 2025 – June 20, 2025*
– Promoted the "Stop Single-Use Plastic" campaign and advocated eco-friendly alternatives in community outreach drives.
– Organized cleanliness programs, waste segregation campaigns, and interactive conservation sessions in schools.
– Spearheaded tree plantation initiatives and supported green campus operations, earning CSR leadership recognition.

Key Projects & Engineering Portfolio

AI-Powered Career Discovery & Web Platforms | *Claude, Antigravity, Codex, Figma, Web* — 2025 – 2026
– Built modern, responsive web applications leveraging state-of-the-art AI developer tools (Claude, Antigravity, Codex, ChatGPT) to accelerate end-to-end code generation, component architecture, and automated debugging.
– Created high-fidelity UI/UX layouts utilizing AI design tools, cutting wireframe-to-prototype delivery cycles by 60%.

Human-Powered Energy Harvesting Rowing Machine | *Mechanical Fabrication, Power Circuits* — 6th & 7th Sem (Ongoing)
– Fabricating a human-powered energy harvesting rowing mechanism converting cyclic mechanical strokes into electrical power.
– Engineered step-up transmission via high-ratio sprockets, chain drives, one-way clutch, and permanent magnet DC generator.

AI-Assisted Media, Poster & Content Automation System | *Generative AI, Prompt Engineering* — 2024 – 2025
– Architected an automated content pipeline generating thematic event posters, visual banners, and promotional copy.

Extracurricular Activities & Leadership

Society of Automotive Engineers (SAE) — Collegiate Chapter
Active Member – DISCO Subdivision — *2024 – Present*
– Designed creative promotional posters, banners, and digital graphics for diverse events and workshops organized by SAE.
– Authored engaging technical content, notices, event descriptions, and publicity write-ups for the student community.

Techsrijan (Annual Techno-Management Fest) — MMMUT Gorakhpur
Event Organizing Committee Member (Techsrijan 2025 & Techsrijan 2026) — *2025 – 2026*
– Active organizing committee member for two consecutive editions (2025 and 2026) of MMMUT's flagship tech festival.
– Assisted in event publicity, creative media coordination, stage management, and operations across technical tracks for 2,000+ attendees.

Hobbies & Personal Interests

- **Cricket:** Active cricket player participating in collegiate and local matches; team strategy and match tactics.
- **PC Gaming:** Passionate about competitive tactical and strategy games, exercising quick decision-making and spatial focus.
- **Creative Design & AI:** Experimenting with cutting-edge multimodal generative AI, poster aesthetics, and digital media design.
