Professional Summary

AI Full-Stack Web Developer and final-year B.Tech student at MMMUT Gorakhpur, combining systems engineering principles with modern web technologies to architect intelligent digital products. Leverages state-of-the-art AI developer platforms (Claude, Antigravity, Codex, ChatGPT, Gemini) to build production-ready applications, live API aggregation engines, and responsive UI/UX. Deployed multiple live platforms on Vercel with a focus on product thinking and rapid iteration.

Technical Skills

AI Developer Tools: Claude (Anthropic), Antigravity, OpenAI Codex, ChatGPT, Google Gemini, Prompt Engineering, Agentic Workflows
Web & Application Dev: Next.js, React, JavaScript (ES6+), Python, HTML5, CSS3, FastAPI, REST APIs, Database Integration
Deployment & Platforms: Git, GitHub, Vercel, Render, RapidAPI, Linux/Bash, Serverless Endpoints
Product & Creative: SaaS Concepts, Responsive UI/UX Design, Figma AI, Digital Poster Design, Technical Writing

Education

Madan Mohan Malaviya University of Technology (MMMUT) — Gorakhpur, UP
Bachelor of Technology (B.Tech) – CGPA: 4.18 (Final Year) — *2023 – 2027*
– Focus: Artificial Intelligence Applications, Web Development, Systems Architecture, Engineering Design.

Gayatri Shiksha Niketan — Jamshedpur, Jharkhand
Senior Secondary School Certificate (Class XII) – 78% — *2023*
– Physics, Chemistry, Mathematics, Computer Science, English.

O.P. Jindal School — Odisha
Secondary School Examination (Class X) – 93.2% — *2021*
– Academic Distinction with strong aptitude in Mathematics, Science, and Information Technology.

Experience

Independent AI Product Developer — Remote / Gorakhpur, UP
AI-Powered Web Applications & Full-Stack Development — *2024 – Present*
– Architected and deployed 5+ production web applications on Vercel, integrating multimodal AI models, APIs, and responsive frontends.
– Engineered live API aggregation pipelines, automated scraping fallbacks, and real-time LLM streaming for end-user tools.

Key Projects & Engineering Portfolio

CareerHub AI | *Next.js, RapidAPI JSearch, Vercel, AI Search* — 2025 – 2026
– Architected a real-time job discovery engine aggregating live opportunities from 9+ sources (LinkedIn, Indeed, Glassdoor, ZipRecruiter) with 0% mock data and direct application access across 40+ engineering degrees.
– Indexed 50,000+ live opportunities with multi-source filtering, zero-auth access, and high-performance serverless endpoints.

ExamIntel | *Google Gemini AI, React, Next.js, Vercel* — 2025 – 2026
– Built an enterprise-grade 17-feature exam intelligence platform featuring real-time Exam Comparison, Prerequisite Dependency Mapping, Personalized Question Paper Generation, and interactive AI mentoring via Google Gemini streaming.

Nexron AI & PrepOS AI | *Full-Stack, Adaptive Learning Engine, SaaS Architecture* — 2025 – 2026
– Created an adaptive AI roadmap engine with dynamic schedule replanning based on availability, milestone tracking, and mentoring.
– Developed an enterprise career prep OS with 50+ capabilities including AI Placement Digital Twin, Mock Simulator, and Coding IDE.

Telegram Document Downloader AI | *Google Gemini AI, Python, FastAPI, Telethon, React, Vercel* — 2025 – 2026
– Architected an AI-powered document intelligence and extractor utility integrating official Telegram MTProto APIs with persistent encrypted session state and multi-user authentication.
– Integrated Google Gemini for automated document summarization, topic extraction, and semantic search across channel files.

Extracurricular Activities & Leadership

Society of Automotive Engineers (SAE) — Collegiate Chapter
Active Member – DISCO Subdivision — *2024 – Present*
– Designed promotional posters, banners, and digital graphics; authored technical content and publicity notices for student events.

Techsrijan (Annual Techno-Management Fest) — MMMUT Gorakhpur
Event Organizing Committee Member (Techsrijan 2025 & Techsrijan 2026) — *2025 – 2026*
– Coordinated event publicity, creative media, stage management, and operations across technical tracks for 2,000+ attendees.
